

Pawn Shops Count On Sonitrol

You Know What's at Risk

Pawn shops are prime targets for thieves. Criminals know pawn shops have a high concentration of valuable merchandise that can be quickly converted into cash, and they can get in and out before the police have a chance to arrive.

According to the Department of Justice, police response time can be up to 60 minutes. The average response time drops to 7 minutes with Sonitrol's security systems.

The Sonitrol Difference

- "94 to 98 % of alarm signals are false"
Department of Justice
- Sonitrol gets a priority response from authorities because we verify that a crime is actually occurring with our intelligent security technology
- Sonitrol's uses intrusion detection technology to hear and even see the crime as it occurs
- Sonitrol relays real-time intelligence to the police for a prompt response and arrest

Sonitrol Gets Results

Sonitrol has helped law enforcement apprehend over 171,000 criminals to date.
